

JINASENA IMIYAGE CHATHUNI NIMESHA GAMMANPILA

Software Engineer | Full-Stack Developer |
AI & Mobile Application Developer | UI/UX
Designer

ABOUT ME

Software Engineer and Full-Stack Developer with hands-on experience in developing web, mobile, AI-powered, and intelligent application solutions through professional software development, academic projects, and research. Experienced in React, Next.js, TypeScript, Java, Spring Boot, Node.js, FastAPI, Python, Kotlin, MongoDB, PostgreSQL, and MySQL. Skilled in RESTful APIs, secure authentication, AI/RAG integrations, mobile applications, AR-assisted solutions, database-driven systems, automated testing, and responsive UI development. Strong interest in software engineering, AI-powered applications, cloud technologies, and intelligent systems.

WORK EXPERIENCE

Software Engineer (Intern) **2025 May – 2026 Aug**
Yilai Network Technology (PVT)LTD

- Developed responsive web applications using React.js, JavaScript, HTML5 and CSS3.
- Built reusable UI components and implemented CRUD functionality & application workflows.
- Integrated frontend applications with RESTful APIs and backend services.
- Used Git/GitHub for version control and collaborative development.
- Performed testing, debugging, issue resolution and performance improvements.
- Contributed to the software development lifecycle, including development, testing and deployment.

Human Resources Manager **2023 – 2025 April**
Global Voice Tech (PVT)LTD

- Managed recruitment and employee onboarding processes.
- Handled employee records, attendance and HR documentation.
- Coordinated internal communication and HR operations.
- Supported performance tracking and staff management activities.

TECHNICAL SKILLS

Languages

- Java • Kotlin • CSS3
- JavaScript • C#
- TypeScript • SQL
- Python • HTML5

Frontend

- React.js
- Next.js
- Tailwind CSS
- Jetpack Compose
- XML
- Material 3

Backend

- Node.js
- Express.js
- Spring Boot
- FastAPI
- Rest APIs

Databases

- MongoDB
- MySQL
- PostgreSQL

Testing & Security

- Playwright
- TestNG
- Unit Testing
- JWT
- RBAC
- Argon2id
- PBKDF2
- API Testing

Tools & Platforms

- Git
- GitHub
- VS Code
- Android Studio
- Figma
- Postman
- Maven
- Linux
- Apache Tomcat
- Vercel

EDUCATION

(2023 – 2026) Ongoing
Bachelor of Science Honours in
Information Technology Specialized
in Information Technology(Final
Year Undergraduate – 4th year 2nd
Semester)

Sri Lanka Institute of Information
Technology (SLIIT) - Malabe

(2019 July – 2020 Jan)
Diploma in Information Technology
Ministry of Information & Communication
Technology

(2018 Dec – 2019 Dec)
Diploma in English Language
Ministry of Information & Communication
Technology

(2019 Aug – 2019 Dec)
Diploma in Tamil Language
Ministry of Information & Communication
Technology

Human Resources Manager

2021 – 2022 Dec

Yilai Network Technology (PVT)LTD

- Managed HR operations including recruitment and employee coordination.
- Maintained employee databases and company records.
- Assisted in training coordination and staff management.
- Supported daily administrative HR functions.

PROJECTS

AR-Assisted Sensor Placement & Coverage Optimization — Ongoing Research Project

Kotlin | Jetpack Compose | ARCore | SceneView | Android Studio

- Developing an AR-assisted mobile application as part of an ongoing final-year research project focused on smart greenhouse sensor placement and coverage optimization.
- Designing a configurable virtual greenhouse grid with interactive sensor placement, sensor-type-specific coverage analysis, and blind-spot identification.
- Developing a greedy candidate-based optimization approach and real-scale AR visualization for recommending and aligning sensor positions with physical greenhouse environments.

SupportFlow AI — AI Customer Support SaaS Platform

React | TypeScript | FastAPI | Python | MongoDB Atlas | Gemini AI | RAG | Tailwind CSS

- Developed a full-stack AI-powered customer support SaaS platform for managing conversations, customers, tickets, knowledge bases, and AI-assisted support workflows
- Implemented workspace-based multi-tenancy, role-based access control, and workspace-level data isolation.
- Integrated Google Gemini and Retrieval-Augmented Generation (RAG) with embeddings and MongoDB Atlas Vector Search for AI-assisted support.
- Developed RESTful APIs using FastAPI and Pydantic with a modern React/TypeScript frontend using React Query and Tailwind CSS.
- Implemented ticket escalation workflows, global search, analytics, and production-ready deployment configuration.

Northline — Secure Payment Checkout Platform

Next.js | React | TypeScript | PostgreSQL | Stripe | Tailwind CSS

- Developed a secure payment checkout platform using Next.js, TypeScript, Stripe Payment Element, and PostgreSQL.

(2020)
G.C.E Advanced Level (Physical Science Stream)
G/Elakaka National College - Benthota

Index No: 9091378
Chemistry : S , Combined Mathematics : S , Physics : S ,
General English : S

(2012 – 2015)
Certificate in Indian Classical Music (Violin)
Bhatkhande Sangit Vidyapith, Lucknow

(2015)
G.C.E Ordinary Level
G/Elakaka National College - Benthota

LANGUAGE SKILLS

- Sinhala (Native)
- English

SOFT SKILLS

- Teamwork
- Communication
- Leadership
- Problem Solving
- Time Management
- Creativity

PERSONAL INFORMATION

- **Name with Initials :** J.I Chathuni Nimesha Gammanpila
- **Date of Birth :** 03/09/1999
- **Age :** 27 years
- **Nationality :** Sri Lankan
- **Religion :** Buddhism
- **NIC Number:** 997473728V

Mr. K. Sivanandam

Director

Global Voice Tech PVT(LTD)

+94 726903498

- Implemented Payment Intent-based payments, idempotency protection, payment history, and Stripe webhook processing.
- Built secure authentication with Argon2id password hashing, HTTP-only sessions, CSRF protection, rate limiting, email verification, and password recovery.
- Added security headers, structured logging, health monitoring, database migrations, and GitHub Actions CI.
- Achieved 241 passing application tests and 91 passing PostgreSQL tests, with successful linting and production builds.

Nightlife — Full-Stack Social Photography Platform

React | Java | Spring Boot | MySQL | JWT | Cloudinary

- Developed a full-stack social photography platform featuring authentication, profiles, posts, likes, comments, follows, stories, reels, notifications, and content discovery.
- Implemented JWT-based authentication and authorization, ownership validation, and privacy controls.
- Developed RESTful APIs using Spring Boot, Spring Data JPA, and MySQL.
- Integrated Cloudinary for image and video management and built responsive interfaces using Chakra UI, Ant Design, and Tailwind CSS.
- Implemented automated backend testing covering authentication, validation, ownership, and privacy scenarios.

Grand Royal Luxury Restaurant Management System

Next.js | React | TypeScript | Node.js | Express.js | MongoDB

- Developed a full-stack restaurant management system with a responsive customer website and administrative dashboard.
- Implemented menu CRUD operations, search/filtering, table reservations, and reservation management.
- Developed RESTful APIs using Node.js, Express.js, Mongoose, and MongoDB Atlas.
- Designed a responsive luxury-themed interface using Tailwind CSS and integrated frontend-backend data workflows.

CoreFlow — Offline Workout & Habit Tracker

Kotlin | Android Studio | XML | Gson | AlamManager

- Developed an offline Android application for workout, habit, and daily activity tracking.
- Implemented local authentication, CRUD functionality, and persistent data storage using SharedPreferences and Gson.
- Applied MVVM and repository-based architecture for maintainable application design.
- Implemented reminders and elapsed-time tracking using Android AlarmManager and timestamps.
- Achieved 69+ passing unit tests with DEBUG-only demo data for development and testing.
